Learn by doing – and listening!

The emphasis of the course is on playing in a band. There is no specific instrumental guidance, so you can combine the course with having instrumental lessons alongside. The course covers well-known standards and is student-centred, adapted to suit the needs of the specific group. Some theory and ear training is included, as well as initial and final assessment but these are informal and non-scary!!

Each course runs for 2 years; the first year for beginners in jazz and the second for intermediate level players. This academic year (2018-19) is the second year of the course but new students are always welcome.

Who is this course for?

- Those with some experience of playing jazz in a group who want to improve existing skills
- Any instruments or singers with reasonable technical ability
- Over 16's (under 16's must be accompanied by an adult)
